Instrukcja obsługi

XGIMI

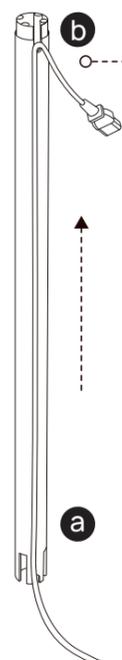

Lista opakowań i części

- A** Śruby sześciokątne
- B** Płyta adaptera
- C** Drażek wsporczy
- D** Dodatkowa prowadnica kablowa
- E** Klucz sześciokątny
- F** Podstawa
- G** Regulowane podkładki śrubowe

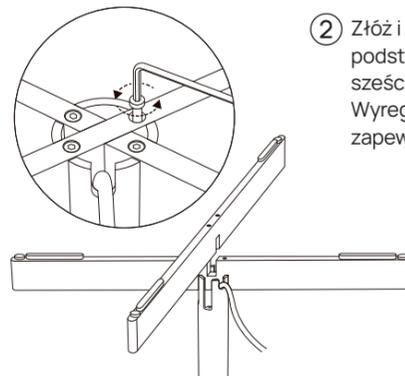

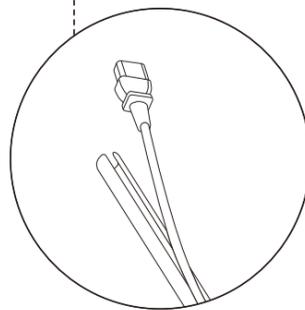

XGIMI Technology Co., Ltd.
Building A4, No. 1129, Century City Road, High-tech Zone, Chengdu, China
service@xgimi.com www.xgimi.com

Instalacja

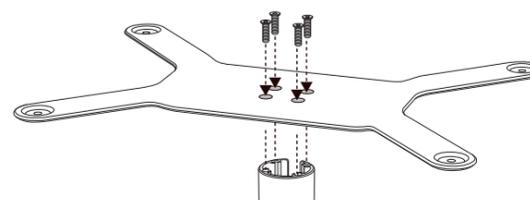

- 1 Włóż kabel AC projektora do otworu **a**, przeprowadź go przez drażek wsporczy, używając dodatkowej prowadnicy kablowej, a następnie wyciągnij go przez otwór **b**.

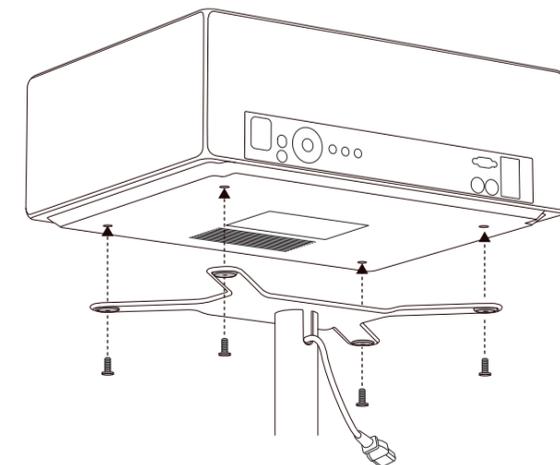

- 2 Złóż i zamocuj drażek wsporczy do podstawy, używając klucza sześciokątnego i śrub sześciokątnych. Wyreguluj podkładki śrubowe, aby zapewnić stabilność podstawy.

- 3 Użyj klucza sześciokątnego i śrub sześciokątnych, aby zamocować drażek wsporczy do płyty adaptera.

- 4 Użyj klucza sześciokątnego i śrub sześciokątnych, aby zamocować płytę adaptera do projektora.
